

2020 Recruiting Video Submission for Colleges

This year it is very important to capture video for colleges that can not attend the Senior and Junior Fall Classics for whatever the reason.

We have created a Dropbox folder with a folder for every player on every roster in the event. We will upload as much video as we can. We will be capturing our own video, but we obviously can not get every at bat and every pitch.

If you want to confirm that video gets in front of colleges, you can send 15 second clips or smaller to azfcvideo@gmail.com. You can also post on twitter and we will re-tweet, but we can not upload video from your twitter account. Teams and parents alike can send video to us. It is ok to send a full at-bat with multiple clips, just no longer than 15 seconds per clip. The best view is landscape(phone on it's side)

We also will include any player profiles purchased at <https://kinemetrics3d.com/purchase-videos/>. These videos will be created at the event using high tech cameras and video editing to make the player look his best. You will also receive this video to send to colleges you are interested in.
